

ECLIPSE PLASTIC CHAIR Design Angelo Pinaffo

Family of chairs created to celebrate the 50th anniversary of the moon landing. A continuous line, curved like the elliptical orbits of the spherical planets, generates a clean and essential seat, which conveys lightness. Eclipse, with a vintage appeal, is a chair with a good balance between comfort and aesthetics. Epoxy-coated or chromed-plated metal frame. Fiberglass-reinforced polypropylene monocoque with anti-UV treatment, even in the flame retardant version.

ACCESSORIES
